PROJECTS

- **Personal Portfolio Website** — Mobile-first portfolio with sections for projects, skills, and contact. Implemented semantic HTML, Flexbox/Grid, and responsive navbar. *(HTML, CSS, JS)*

- **Styled Bio / Landing Page** — Clean single-page bio with typography hierarchy, spacing scale, and interactive buttons; passed basic Lighthouse checks. *(HTML, CSS)*

- **UI Components Mini Pack** — Reusable navbar, cards, and grid gallery; vanilla JS for menu toggle and smooth scroll. *(HTML, CSS, JS)*

- **MySQL Academic DB** — Normalized schema for a mock business; wrote SELECT/JOIN/AGG queries for reporting. *(MySQL)*

- **Java Coursework App** — Practiced input handling, control flow, and debugging to strengthen programming fundamentals. *(Java)*

EXPERIENCE & ACTIVITIES

- **IT Support (Volunteer)** — Helped peers with software installs, basic troubleshooting, and file organization; improved communication and customer focus.

- **Video Editing & Content** — Edited short videos for social media (transitions, pacing, audio balance), developing a strong design sense useful for UI.

- **AI Tools Exploration** — Used ChatGPT and generative AI to speed up note-taking, content drafts, and coding hints; built habits for problem decomposition.
